

Attitudes Survey

Ogden Trust Survey

We would like to find out your views on Science, Physics and Careers

There are no right or wrong answers - we are interested in what YOU think (your individual answers will not be seen by any of your teachers)

Please click the CONTINUE button below to start the survey, it should take about 5 minutes to complete...

*Required

Science: in School Lessons

*What area of Science do you find MOST interesting at school? **

* Required

Physics (e.g. forces, electricity & astronomy)
 Biology (e.g. living things & the natural world)
 None of them
 Chemistry (e.g. atoms, elements, properties & reactions of matter)
 Other:

*What do you think about your Physics Lessons at school? **

Please choose one option in each row

	All the time	Most of the time	Sometimes	Not very often	Never
Our Physics lessons are exciting	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

On Resources Section of Ogden Website

- **To determine longer-term attitudinal change**
 - Perceptions of Physics
 - Attitudes towards Physics
 - Awareness of Careers using Physics
 - Intention to continue with Physics
- **Use with Partnership school cohorts**
- **Google Form format**

An **online Google Forms survey** for students to determine attitudes towards Physics

→ Use with Partnership School cohorts and repeat annually

* TO GET THE LINK FOR STUDENTS TO COMPLETE THE SURVEY

Click on File > Send Form (and copy/email the link)

The Ogden Trust
making physics matter

Please give up to 3 words which
describe how you feel
about Science at school...

Responses to the '3 words' questions can be used to generate 'Word Clouds' (visual representations of lists of text) at www.wordle.net

The bigger the word, the more often it appears.
